Payment Gateway Information: Polar

Step 1. Email address for the Polar sandbox (test) invite

Sandbox email	`mubasshir.edu@gmail.com`

Step 2. Product name and plans / prices

Product name	ESAP Clinical AI

Plan	Price	Billing
Individual: Free	$0 / month	Monthly subscription
Individual: Pro	$39 / month	Monthly subscription
Hospital Pilot (90 days, up to 25 users)	$18,000	One-time payment
Essential	$34 per bed / month	Monthly, quantity = number of beds
Professional	$48 per bed / month	Monthly, quantity = number of beds
Enterprise	Custom pricing	Sales contract (not through Polar checkout)

Prices are the current proposed list and may change before launch. Hospital plans include unlimited staff users.

Step 3. Webhook URL on our server

Webhook URL	`https://esap-api.159-195-83-232.sslip.io/api/v1/polar/webhook`

If the API moves to a dedicated subdomain, we will share the updated URL.

Step 4. Webhook events required

Event	Purpose
`order.paid`	Activate the plan / record each payment
`order.refunded`	Reverse access after a refund
`subscription.created`	Create the subscription record
`subscription.active`	Unlock plan features
`subscription.updated`	Plan change or bed-count change
`subscription.canceled`	Mark plan as ending at period end
`subscription.revoked`	Suspend access when subscription ends

Step 5. Success URL and Return URL

Success URL	`https://care.esap.ai/billing/success?checkout_id={CHECKOUT_ID}`
Return URL (back button)	`https://care.esap.ai/pricing`

Step 6. Website domain (embedded checkout)

Domain	`care.esap.ai`

Step 7. Integration type

Integration type	**API**
